## SUMMARY

---

I am a sixth-semester Informatics Engineering student with a passion for Frontend Development and Data Analytics. In addition to proficiency in HTML, CSS, and JavaScript, I also have experience mini project using the PHP, Laravel, ReactJS framework for web application development. In Data Analytics, I have the ability to use Python for data analysis and data visualization with Looker Studio. Driven by a desire to continuously learn and grow, I actively seek opportunities to contribute to software development and data-driven projects. My technical skills and enthusiasm for learning make me confident that I can tackle challenges and excel in the professional world.
