## SUMMARY

---

I am a sixth-semester Informatics Engineering student with a strong passion for Frontend Development and Data Analytics. Driven by the desire to learn and grow, I actively seek opportunities to contribute to software development and data-driven projects. My technical skills and enthusiasm position me to tackle challenges and excel in the professional world.

## EDUCATION

---

### Universitas Nurtanio

*SI Informatics Engineering*

2021 – Till date

GPA: 3.16/4.0 in 5<sup>th</sup> Semester

## EXPERIENCE

---

### RevoU x Studi Independen Kampus Merdeka

Aug. 2023 – Dec. 2023

*Data Analytics & Software Engineering*

- learning in cycle 1 for two months on introduction to software engineering using HTML, CSS and Javascript (Node Js.) and as a Project Leader I was assigned to create a spreadsheet to check progress every week. and work on the final project (capstone project) with a case study of a health service application as a Frontend.
- learning in cycle 2 for two months on introduction to data analysis using SQL, Python, Speedsheet, for incomprehensible business problems, Data Cleaning and Visualization using Looker Studio and as a Project Leader I was assigned to create a spreadsheet to check progress every week. and work on the final project (capstone project) with New York City Property case study as Visualization.

### VSGA Digitalent Scholarship x Kominfo

Apr. 2023 – May. 2023

*Junior Web Developer*

Attend 2 months of online training Have experience in using HTML, CSS, and JavaScript to build responsive and attractive user interfaces. In addition, I have also been involved in back-end development using technologies such as PHP and MySQL, as well as understanding the basic concepts of database management.

## ORGANIZATION EXPERIENCE

---

### Internet Of Things (IoT)

2021 – Till date

*Committee*

- Actively participated in a meeting on IoT device preparation, instructing participants in Arduino Uno coding sessions and providing comprehensive materials to ensure understanding.

### Multimedia

2021 – 2022

*Member*

- Developed proficiency in photo and video editing software like Adobe Photoshop and Premiere Pro, along with additional tools.

## SKILLS AND INTEREST

---

Hard Skills: Proficient in web programming and user interface development (UI/UX). | Skilled in data analysis and proficient in using various data analysis tools.

Tools : Frontend Development: HTML, CSS, JavaScript, Bootstrap | Data Analytics: Proficient in Python, Pandas, NumPy, Matplotlib, and Seaborn for insightful data analysis and visualization. | Others : Git and Visual Studio Code.

Indonesian: Native speaker (Advanced).

English: Conversational (Intermediate).
