SUMMARY

I am a sixth-semester Informatics Engineering student with a passion for Frontend Development and Data Analytics. Proficient in HTML, CSS, and JavaScript, I also have experience with web application development using PHP, Laravel, and ReactJS. In Data Analytics, I utilize Python for data analysis and data visualization with Looker Studio. Driven by a desire to continuously learn and grow, I actively seek opportunities to contribute to software development and data-driven projects. My technical skills and enthusiasm for learning equip me to tackle challenges and excel in the professional world.

EDUCATION

Universitas Nurtanio - Bandung, Indonesia   Sep. 2021 – Present
S1 Informatics Engineering   GPA: 3.16/4.0 *in 5th Semester*

EXPERIENCE

Studi Independen Kampus Merdeka x RevoU   Aug. 2023 – Dec. 2023

Data Analytics & Software Engineering
• Participated as mentee in cycle 1 and cycle 2, for two months on intro to software engineering using HTML, CSS and Javascript (Node.js). and for two months on intro to data analytics using SQL, Python, Spreadsheet, for Data Cleaning and Visualization using Looker Studio.
• Led a team of 6 in managing project progress using a custom-built spreadsheet, significantly enhancing team communication and mentor, and ensuring timely project completion.
• Collaborated with team on the final project (capstone project) with a case study of a health service application called Chatdoc as a Frontend with Final score **87**, and New York City Sales Property case study as a Visualization with Final score **95**.
