Bandung, Indonesia

SUMMARY OF QUALIFICATIONS

Fresh Graduate in Informatics Engineering with hands-on experience in IT Operations, IT Support, and Information Systems gained through internships at PT Kimia Farma Apotek and PT Dirgantara Indonesia. Proficient in troubleshooting, IT infrastructure support, Python automation, and web application development using React, PHP, and SQL.

EDUCATION

University of Nurtanio

September 2021 – July 2025

Bachelor of Informatics Engineering

- GPA : 3.37 / 4.00
- Relevant Coursework : Web Programming, Software Engineering, Database Management, Computer Networks, Operating Systems.

WORK EXPERIENCE

PT. Kimia Farma Apotek - Jakarta, Indonesia

November 2025 – May 2026

Information Technology Intern

- Processed and validated inventory data from the Smartstock inventory management system across 51 Business Manager (BM) regions, supporting stock opname activities for more than 1,300 outlets nationwide while ensuring data accuracy and consistency between physical inventory and system records.
- Developed Python-based web scraping tools to automate Smartstock data extraction and inventory reconciliation, reducing manual processing and improving the efficiency and accuracy of stock opname preparation.
- Provided IT support and service desk assistance by installing, configuring, and troubleshooting hardware, software, printers, and network connectivity issues, ensuring reliable day-to-day operations at the head office.
- Collaborated with cross-functional teams to identify and resolve inventory management, system, and IT infrastructure issues, supporting operational efficiency, continuous service improvement, and business process optimization.

PT. Dirgantara Indonesia (Persero) - Bandung, Indonesia

November 2024 – January 2025

Information Systems Intern

- Entered, validated, and maintained over 5,000 data records for the Directorate of Technology and Development, ensuring data accuracy and consistency across internal systems.
- Developed and maintained internal web applications, including a Company Profile website, using PHP and MySQL, enhancing user interfaces and expanding system functionality.
- Provided IT support by installing, configuring, and troubleshooting Windows computers, software, and network connectivity issues to ensure smooth daily operations.
- Performed preventive maintenance, system monitoring, and troubleshooting of IT equipment and systems, improving reliability and minimizing operational downtime.

ORGANIZATION EXPERIENCE

Unit Kegiatan Mahasiswa Internet of Things (IOT)

September 2021 – February 2024

Committee Member

- Collaborated with a team to develop a simple IoT prototype using Arduino Uno (C/C++) by integrating light and sound sensors, resulting in a functional prototype capable of monitoring light and sound data in real time.

PROJECTS AND TRAINING EXPERIENCE

Selected Projects

November 2024 – May 2026

- Collaborated with a team to develop KFA Center, a web-based IT service management (ITSM) application using React and PostgreSQL, supporting helpdesk ticketing, incident management, asset management, and maintenance scheduling to streamline IT support operations.
- Collaborated with a team to develop a responsive company profile landing page for the Directorate of Technology and Development using React, improving digital information accessibility and user experience.

Bank Sampah Universitas Nurtanio

June 2025 – July 2025

- Collaborated with a team to develop a web based waste bank management system using PHP and MySQL as part of a Software Engineering course project, improving waste and transaction data management through CRUD functionality and database integration.

PT Revolusi Cita Edukasi – Remote

August 2023 – December 2023

Studi Independen, Software Engineering dan Data Analytics

- Led the development of the Chatdoc web application through the software development lifecycle (SDLC), designing a responsive user interface and implementing RESTful APIs using HTML, CSS, JavaScript, Node.js, and Express
- Analyzed the NYC Property dataset through data cleaning, regression analysis, and interactive dashboard with Looker Studio, transforming raw data into actionable business insights.

SKILLS

- **Technical Skills:** Programming: Python, JavaScript, PHP, SQL | Frontend: HTML, CSS, React.js | Frameworks: Laravel, Express.js | Databases: MySQL, PostgreSQL | Tools: Git, Visual Studio Code, Figma, Looker Studio, Google Colab | Productivity: Microsoft Office (Word, Excel, PowerPoint), Google Workspace (Docs, Sheets).
- **Languages:** Indonesian (Native), English (Professional Working Proficiency).

CERTIFICATIONS

- **Asisten Pengembang Web (Assistant Web Developer) – BNSP (2026) [Certificate]**
- **IT Specialist Data Analytics (Certiport) | Skor: 929 / 1000 (2025) [certificate]**
- **Digitalent (Komdigi) | Data Science (2025) [certificate] | AWS Cloud Engineer (2024) [certificate] | Junior Web Developer (2023) [certificate]**
- **Top 99 Participant - Role Hacker, IndonesiaNEXT Program - Telkomsel (2025) [certificate]**
- **Ethical Hacker (Cisco Networking Academy) (2025) [certificate]**
- **Studi Independen (Kampus Merdeka Kemendikbud) | Software Engineering dan Data Analytics | Skor: 86 / 100 (2023) [certificate]**
